INDIVIDUAL REPORTS

- **Assessment Completeness**
How fully each person has been assessed, so you know when the data is ready to trust.
- **Skills History**
How one person's scores have moved across every skill, season by season.
- **Individual Team History**
Every team someone has belonged to, year by year, with their scores and coach for each season.
- **Individual Radar**
A single person's full skill set at a glance — strengths, gaps, and overall shape.
- **Individual Comparison**
Two people side by side, or one person against their own past performance.
- **Potential vs Performance**
Flags anyone performing below their personal best, ranked by size of the gap.
- **Consistency**
Who's reliably stable versus who swings season to season.
- **Trend Velocity & Top Movers**
Who's improving fastest right now, and who's risen or fallen the most between two seasons.

TEAM REPORTS

- **Team Rankings & Comparison**
Rank everyone by average score, or view the whole team on one radar chart.
- **Skill Summary & Team Depth**
Team-wide averages for every skill, plus who meets a strong-score threshold and where cover is thin.
- **Team Skill Gap & Age Benchmarking**
Compare two teams head-to-head, or see how people stack up against peers in the same age bracket.
- **Team Roster History**
Who was on the team each season, with every person's scores and the coach for that year.
- **Season Over Season**
How the team's average scores have trended year over year.
- **Leader Impact**
How much a team has improved under its current coaching or management staff.
